

# Replace This Line with the Title of Your Manuscript

F. M. Lastname, F. M. Lastname  
University, Country

**Abstract**—The abstract of your article should be here.

## 1. Introduction

This is the place for introduction.

## 2. Formulations and Equations

For equations,

$$\nabla \times \bar{E}(\bar{r}, t) = -\frac{\partial \bar{B}(\bar{r}, t)}{\partial t} \quad (1)$$

For multiline equations, authors can use “eqnarray”

$$\begin{aligned} \nabla \times \bar{H}(\bar{r}, t) &= \frac{\partial \bar{D}(\bar{r}, t)}{\partial t} + \bar{J}(\bar{r}, t) \\ \nabla \cdot \bar{B}(\bar{r}, t) &= 0 \end{aligned} \quad (2)$$

The equation is referred as (2).

## 3. Figures and Tables

### 3.1 Figures

For best publishing quality, we recommend the EPS format for figures. Please note that a color picture cannot be printed in proceeding. Figure 1 shows how to insert an encapsulated postscript figure.

Figure 1: This is a sample figure.

### 3.2 Tables

Table 1 shows how to display a table.

Table 1: A sample table.

col 1's label	col 2's label	col 3's label
1	2	3
130	0.5	1.159

## 4. Conclusion

Please put your conclusion here.

## **Acknowledgment**

If you have acknowledgment part, please write it here.
